

Chers collègues et amis,

Depuis que nous avons reçu cette multitude d'offres d'emplois pour la Somalie, j'ai fait des recherches auprès des Nations Unies.

Après des semaines d'investigations auprès de divers services, je puis aujourd'hui vous confirmer officiellement que rien ne nous empêche d'être candidat avec plusieurs opérateurs sur un même appel à propositions.

En voici la preuve écrite:

Dear Mr. Gonzal,

Thank you for contacting us.

I am not aware of any legislation prohibiting you to place your CV in multiple concurrent proposals.

Wish you good luck and best regards.

Kristof

UNOPS

Operational excellence for results that matter

Dear Madam, Sir,

I am writing to you on advice of Lassana Sanogo in Cc. I am moderator of the French speaking forum about Mine Action, Franco-mines. We are spreading all information and most of them are job offers. As you may know there is not many French speaking human resources and most of the time on a same Request For Proposal we are invited to apply by several operators who want to put our CV in their proposals.

Some years ago, in 2008, I applied with three different operators on a same RFP in Chad and I was aware it was forbidden, I could not appear in several technical proposals as Project Manager (or any other position in the organization).

Is it true?

In example, actually I am working in Western Sahara, currently there is a RFP. Three different operators, NGO and Companies, would like to get my CV in their proposals. Can I apply with all three?

As this situation is recurrent these last months, I would like to write an announcement to our community of French speakers (545 members today) to state on this problem.

In advance thank you, very best regards,

Manuel Gonzal
